

Meeting date: 5. February 2019
Meeting place: Meeting room 1
Meeting subject: Section meeting #System

Attendees: #System

1. Personalia

- Sylvestre's last working day is March 2nd – We will try to arrange a small get-together /seminar. Collection for a gift is on Therese's desk -> until February 15th. Therese will follow up with Sylvestre when he is in Foulum.
- Anne's last working day is February 8th. Therese will follow up with Anne when she is in Foulum.
- Post Doc position; 34 applications – 8 chosen for review and 1-2 applicants will be called in for an interview. Tommy, Chris and Morten will take part in the hiring committee, others are welcome if interested.
- Researcher position description under preparation. Tommy will make the job description outline for discussion in the group before announcement.
- TAP – Taskforce w. Troels/tommy. Orla expect to stop working after the summer holiday.
- New master student from March to August – Double degree Erasmus+ from Hohenheim University, Jacques Voss (will work on institutional N-print etc. with Morten and Tommy).

2. Institute management

- Finance;
Good progress in catching up on the deficit from 2018.
Staffing plans – Alice will send an updated version to Tommy, and if you have questions come to him.
- Relocation;
Scenario no.1 and no.2 is in the process of further exploration from Birgit, and a final decision will be made by Erik. Scenario no. 3 is not possible, because DCA needs the office space in the A-building.

3. Visions discussion for the international evaluation and strategy work 2019

- We had a good discussion of the points requested by Janne.
- Mega trends in research /Projects that we want to explore further – Tommy will draw up a list, and distribute to the group and to Janne.

4. Status for new projects, and projects application (ReAp)

- Therese will edit the list in ReAp.

5. Short presentation of recently accepted papers

- **Knudsen MT**, Preda T, Djomo SN, Valbuena NP, Smith L, Padel S, Hörtenhuber S, Zollitsch W, Hermansen JE. (2019) The importance of including soil carbon changes, ecotoxicity and biodiversity impacts in environmental life cycle assessments of organic and conventional milk in Western Europe. *Journal of Cleaner Production* 215: 433-443. <https://doi.org/10.1016/j.jclepro.2018.12.273>
- Peña, N., **Knudsen, M.T.**, Fantke, P., Anton, A., Hermansen, J.E. (2019) Freshwater ecotoxicity assessment of pesticide use in crop production: Testing the influence of modeling choices. *Journal of Cleaner Production* 209: 1332-1341. <https://doi.org/10.1016/j.jclepro.2018.10.257>

6. AOB

- We have a strategy to attract funding to recruit new PhD students to the SYSTEM group within the coming years' time, to have overlap with the PhD students coming close to the end of their period.
- Remember to send in proposals for new MSc thesis projects, to the catalogues requested by both AGRO and ANIS (deadline Feb 22, see mail distributed). **It is very important for us to recruit good students 😊**
